01. The Advertising Rule of Seven says a prospect needs to see or hear a message seven times before they act. Educators emphasize repetition in learning. Reflect on your spiritual journey. How has God repeated spiritual lessons, like an echo, in your life?

02. Every spiritual journey is marked by defining moments. Read Luke 22:54-62; Acts 9:1-6; Genesis 39:6-12. What similarities and differences do you see in these defining moments? How might different decisions have changed the outcomes?

03. Discuss what you think are different characteristics of a spiritually defining moment. Share a spiritually defining moment from your own life. How has the outcome of that moment affected your life? .

04. *Repeat them in our day, in our time make them known.* In your mind, is there a difference between repeating something and making it known? If so, discuss what it is and why you think it's significant.
